

Question of the Week #4

**How do Trinity's community, outreach efforts, and support advance our mission?
Are there other initiatives you'd like to see?**

Location, family, partnerships, music, meeting, new people.

Outreach is faith in action; faith should be thought of as a verb. Our outreach advances our mission within the community by raising awareness of Trinity.

Foodbank, canteen, ACA partnership are important outreach programs. We minister to each other when we pray, make meals and visit. Our congregational care team is the best! Glenn teachers love. We strive to show love in daily life.

Much of our outreach is almost invisible. How can we change that?

Canteen, foodbank (how many of us know about it? Or the scope of it? I was pleasantly surprised!), ACA partnership (I hope this is as successful as I think it is likely), meeting spaces (we have lots of space. I would like to see even more of it made useful), vines (will be great to see the garden area productive next year)

Congregational care. Wow!

Trinity is a beacon of light that doesn't fade.

The congregational care team here at Trinity is amazing!

Canteen and the foodbank, serving our community! I'm excited about the new partnership with the American Civic Association. Serving new members of our community!

Can we bring back the foyer groups?
